

Oksana Carter

I am originally from Ukraine and currently reside in the USA.

I create interior decor from papier-mâché, including pendant lamps, vases, planters, decorative bowls, and other elements that bring natural beauty into a space. My designs are inspired by wabi-sabi, Japandi, Scandinavian, boho, and rustic styles, adding harmony and functionality to any interior.

In addition to crafting new pieces, I restore old items, giving them a second life with papier-mâché. I refurbish vases, lamps, and floor lamps, updating their style and making them relevant once again. I also welcome custom orders.

Using recycled paper is not just a technique for me—it is a conscious choice to have a more eco-friendly environment.
